

COVID-19 Response - Reins Heating and Air Conditioning

In a caring effort to protect the health and safety of all Reins Heating & Air Conditioning customers and team members, we established a protocol for disinfecting work spaces, and it applies to both our office/shop and our customer homes. At the office/shop we have a rigorous process for disinfecting that is done 3x per day. Our technicians disinfect their vans after every customer visit and they disinfect any surfaces they may have touched in a customer's space. We are dedicated to the prevention of virus transmission by (or to) our employees. We also ask you, our customers, to PLEASE advise us if you suspect that you have been exposed. We will do our best to devise a way to work with you even in a quarantine situation.

If we all work together, we can all be safe! God Bless!
